OBJECTIVE

Highly skilled and motivated Software Developer with one year of professional experience, seeking to leverage expertise in Software development to contribute to dynamic development projects. Committed to delivering efficient and innovative solutions that meet and exceed client expectations while continuously expanding skill set and knowledge base.

EXPERIENCE

January 2022 - December 2022

- **Web and mobile front end developer**
  Mlab Codetribe
  Creating and implementing the visual and interactive elements of a website that users interact with directly. Some of the key duties of a front-end developer include:

  Writing code in HTML/CSS/JavaScript to build the structure, style, and behavior of web pages.
  Ensuring that websites are optimized for various devices and screen sizes, using techniques like media queries and flexible layouts.

  Testing and debugging websites to ensure they work consistently across different web browsers.

  Collaborating with designers to implement user interface elements and ensure a positive user experience.

  Performance Optimization: Optimizing website performance by minimizing file sizes, reducing loading times, and improving code efficiency.

January 2021 - December 2021

- **Web Developer**
  Jeppe college polokwane
  Managing projects and processes in elearning app as a fullstack react developer
  Involved in all stages from conception to final testing
  Working closely with UI/UX designers, Testers, and Project owners

April 2024 - Present.

- **Fullstack software engineer.**
  Providence Software Solutions.
  Developed Web Applications:
   - Built robust web applications using ASP.NET Core and ASP.NET MVC.
   - Implemented responsive front-end interfaces with HTML, CSS, JavaScript, and frameworks like Angular/React.

  API Development:
   - Created and maintained RESTful APIs for seamless integration with various client applications.
   - Ensured secure data transactions using OAuth and JWT for authentication and authorization.

  Database Management:
   - Managed and optimized SQL Server databases.
   - Utilized Entity Framework for efficient data access and manipulation.

Cloud Services:
  - Deployed and managed applications on Azure App Services and Azure Functions.
  - Leveraged Azure Logic Apps for automating workflows and integrating services.

Storage Solutions:
  - Implemented Azure Blob Storage, Table Storage, and Cosmos DB for diverse storage needs.

DevOps & CI/CD:
  - Utilized Azure DevOps for setting up CI/CD pipelines, version control, and automated deployments.
  - Ensured smooth and reliable deployments and continuous integration.

EDUCATION

2021
- **Tshwane University of Technology**
  National Diploma in INFORMATION TECHNOLOGY (IT)

2016
- **Kgokwana Secondary school**
  Matric

2023
- **Sololearn online course**
  Redux + React

2023
- **Sololearn online course**
  Web development

2022
- **Mlab south africa boot camp**
  Mlab reactjs course

2024
- **Sololearn online courses**
  C# intermediate

2024
- **Sololearn online courses**
  Angularjs

SKILLS

- CSS
- HTML
- Javascript
- Reactjs
- React native
- Java
- Redux toolkit
- C#
- Python
- SDLC methodologies
- Good interpersonal skills
- MS office
- Excellent Communication
- Ability to work under pressure
- Time management skills
- Report writing skills
- Documentation skills
- Git and Github
- SQL
- RestAPIs
- Dotnet entity framework

PROJECTS

- **Online Portfolio**
  https://roaring-alpaca-7fbd71.netlify.app

PERSONAL DETAILS

- Nationality : South African
- Gender : Male
- ID : 9802085501088
